

dr karl kruszelnicki visits aquinas

Are cooked mussels safe **ONLY** if they are open?

Why does lightning strike the same place twice (and more)?

What is the science behind people spontaneously bursting into flame?

What's more hygienic - an air blower or a paper towel?

'An Evening with Dr Karl Kruszelnicki'

6.15pm Monday 6th December

Author Information

Dr Karl Kruszelnicki burst onto the scene in 1981 when he began presenting the Great Moments In Science segment on radio Double J (the precursor to Triple J) to pay his way through medical school. With his trademark fast-talking, zany take on anything and everything scientific, he quickly built an audience

keen to learn more about our amazing world and be entertained at the same time. Since then, his media career has exploded and now includes TV, books, newspapers, magazines, scripting, professional speaking, and of course, the Net.

You are invited to join us for his exciting talk at on Monday the

6th December, from 6.15pm.

Dr Karl Kruszelnicki will speak in the Redmond Learning Centre and then a light supper will be served. Dymocks Garden City will have copies of 'Curious & Curiouser' available and Dr Karl will sign copies during supper.

Sponsored by Dymocks Garden City

Free tickets to this event can be obtained by returning this form to the Redmond Learning Centre, calling 08 94500618 or emailing library@aquinas.wa.edu.au
