

ECAWA on the Road 2009

ICT, Your Money and Your Classroom

The Educational Computing Association of Western Australia (Inc) presents a

Professional Learning Opportunity in Yanchep

for all teachers –
primary, middle school and secondary

ECAWA is coming to Yanchep District High School on Saturday the 31st of October!

ECAWA on the Road 2009 - ICT, Your Money and Your Classroom will visit a number of country centres around WA, bringing information about Consumer and Financial Literacy for students, as well as workshops for teachers.

The Consumer & Financial Literacy package, consisting of a Teacher Guide with resources to assist teachers to embed consumer and financial literacy across the curriculum, will be supplied to all attendees. ECAWA will offer a full day of workshops and presentations to support the use of ICT in the classroom. Teachers will have the opportunity of developing and discussing curriculum, obtaining collegiate support and learning new skills.

The ICT emphasis on the Yanchep event will be on learning to use Photoshop CS4, with additional workshops exploring the use of Web 2 tools and low cost and free software in the classroom also being offered.

All teachers are invited to participate in this professional learning opportunity.

Register early using the registration form at www.ecawa.wa.edu.au
